Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 28, 29, 39, and 40 are rejected under 35 U.S.C. 102(b) as being anticipated by Chiang (4,813,470).

Chiang discloses an integral ring of single crystal turbine airfoil (product by process; Fig. 1B; col. 1, lines 11-12) comprising an inner rim, a plurality of airfoils integral with the inner rim, and an outer rim integral with the inner rim and with the plurality of airfoils.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 31 is rejected under 35 U.S.C. 103(a) as being unpatentable over Chiang in view of Terkelsen (4,289,570).

Chiang discloses all the limitations except the single crystal supper alloy seed crystals do not comprise a nickel-based superalloy as claimed.

Terkelsen teaches a method for forming single crystal articles by controllably solidifying molten metal alloy from a seed of the same alloy (col. 2, line 27-30).

It would have been obvious to a person having ordinary skill in the art at the time the invention was made, to make the integral ring of single crystal turbine airfoil of Chiang with the

single crystal superalloy seed crystals comprise a nickel-based superalloy as commonly done in the art.

Allowable Subject Matter

4. Claims 1-27, 30, 32, 42, and 43 are allowed.
5. Claim 41 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. Applicant's amendment, along with the amended claim 28 and new claims 39-43, necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
